

MEMORANDUM

TO: Mayor Rick Kaysen
Members of the City Council

FROM: Vicki Nemecek, Assistant Public Works Director

DATE: June 4, 2014

SUBJECT: **Announcement of a Public Hearing to be held June 23, 2014 at 6:00 pm in City Council Chambers, 2101 O'Neil Avenue, Cheyenne, Wyoming, to receive public comments regarding the intent of the City of Cheyenne to designate the use of Excess Monies from the 2011 through 2014 Optional One Percent Sales Tax for Right-of-Way Maintenance, for the Lake Minnehaha Phase I Project, and for Prioritized Energy Efficiency Projects in City-owned facilities.**

Resolution #5224 describes use of the 2011 through 2014 One Percent Sales Tax. It designates 80% of Excess Monies (funds collected over the estimate of \$40 Million) toward Street and Road Maintenance and Construction Projects and 10% of Excess Monies are directed to Human Services. The remaining 10% remains undesignated. We anticipate the undesignated 10% of Excess Monies to be approximately \$863,119.

Parks and Recreation is in need of \$371,000 to perform essential right-of-way maintenance throughout the City. These funds would pay for routine upkeep, preservation, and replacement of landscape enhanced City rights-of-way. Costs include equipment, materials, supplies, and labor for tree pruning, tree replacement, snow removal, mowing, weed control, debris removal, and irrigation.

Parks and Recreation is also in need of \$129,000 to fund a portion of the Lake Minnehaha Phase I Project. This project was funded with SLIB Consensus funds; however, actual costs exceeded estimates once the project was fully designed and contracted.

We recommend designating any remaining Excess Monies, estimated at \$363,119, to Public Works for completion of energy efficiency projects in priority order and as funds allow. The top priority would be to upgrade lighting in areas that were not included in the ARRA Grant funded lighting project. There were insufficient funds to complete lighting upgrades in all areas of our facilities. In addition, there are several garage doors and HVAC systems in need of replacement that would improve energy efficiency in those facilities.

Resolution #5224 states that undesignated excess monies shall be spent for such purposes as may be approved by the governing body following a public hearing.

City staff recommends adoption of the resolution.
