Jim Flesher, Planning Services Department, stated the proposed annexation is pursuant to a petition submitted by Richardson Homes and that requirements and compliance of annexation conditions contained in state statutes had been met. Upon inquiry, Mr. Flesher advised the parcel is part of an existing county pocket. Mayor Kaysen advised Agenda Item #16 is a companion item. There being no further comments or input and purpose of the hearing having been met, Mayor Kaysen closed the hearing.

Mayor Kaysen opened a public hearing to determine whether compliance of annexation conditions required by Wyo. Stat. §15-1-402 exist for a parcel of land situated in the south ½ of Tracts 105 and 106, Sunnyside Addition, Fourth Filing, Laramie County, Wyoming (located at the northeast corner of the intersection of Monroe Avenue and Charles Street). Logan Graves, Planning and Development Office, stated the proposed annexation is pursuant to a petition submitted by the William Pendley family and that requirements and compliance of annexation conditions contained in state statutes had been met. Upon inquiry, Ms. Graves confirmed the purpose of the annexation request is for a single family home to connect to City water and sewer services. There being no further comments or input and purpose of the hearing having been met, Mayor Kaysen closed the hearing. Mayor Kaysen advised Agenda Item #17 is a companion item.

ORDINANCE - Annexing to the City of Cheyenne, Wyoming, a parcel of land situated in a portion of the Northeast Quarter of the Northwest Quarter of Section 26, Township 14 North, Range 66 West of the 6th P.M., Laramie County, Wyoming, to be known as the Del-Van Storage Park Annexation (located at 5311 Dell Range Blvd. at the southwest corner of the intersection of Gysel Place and Dell Range Blvd.) (Postponed from June 23, 2014). Arden and Sharon Carlberg, and Kathy Scheurman, residents in the vicinity, spoke in opposition to a zone change affiliated with the annexation, and indicated their desire that the property zone remain for residential use. They expressed concerns that if the property were developed for storage sheds it would negatively impact property values in the neighborhood; that a proposed zone change to MUE (Mixed-Use Employment Emphasis) “does not fit” the neighborhood, and commented on drainage concerns. Ms. Carlberg submitted a letter in opposition (on file with City Clerk’s office) and distributed photos of her residential property adjacent to the parcel. Casey Palma, Steil Surveying Services, agent for the applicant, advised the annexation ordinance “is tied” to the zone change ordinance and preliminary plat items (i.e. Agenda Items #10 and #23) and noted a neighborhood meeting was recently held to discuss proposed development plans for the parcel in an effort to mitigate some of the neighbors’ concerns. He provided information on drainage and storm water detention and engineering plans; past proposed uses for the property that have not materialized, and the reasons for requesting the MUE type zone classification. He noted the current developers have structured their contract plans to acquire the property based upon development of a storage park at the location and that the project should have a low traffic effect on the neighborhood and that landscape buffering between residential homes and the storage park would be provided. Jerry Ciz, managing developer partner, advised they

had reviewed different development projects for the property and determined that storage units would be the best use; provided information on the operational and management aspects, including security and lighting, planned for the business, and the traffic assessment study; advised a neighborhood meeting had been held, and confirmed the developers have no interest in any other type of development project for the property. Reporting for Public Services Committee, Mr. Shanor moved to approve on second reading, seconded by Mr. Allen. Upon inquiry, Dan White, City Attorney, advised regardless of the ordinance content referring to the annexation as the Del-Van Storage Park Annexation, the ordinance follows the same format as any other annexation ordinance and if annexed the property would become subject to the City's jurisdiction and development requirements. Upon inquiry, Ms. Carlberg delineated where her residence is located relative to the proposed annexation area. Comments followed regarding possible development of the property through county approval if it is not annexed, and the motion before the governing body involving annexation, not re-zoning. Motion carried. Voting "yes" -- all members of the governing body with the exception of Ms. Broyles, Mr. Luna and Ms. Williams voting "no".

ORDINANCE - Pursuant to Section 2.2.1, Zoning Map Amendments, Section 5.1.2, Zoning Districts Established, and Section 5.1.3, Official Zoning Map, of the Cheyenne Unified Development Code, changing the zoning classification from MU Mixed Use (County), MUB Mixed-Use Business Emphasis, and MR-1 Medium Density Residential-Established to MUE Mixed-Use Employment Emphasis for Del-Van Storage Park, being a replat of all of Goodwater Addition, Goodwater Drive, and Water Blue Lane and a portion of the Northeast Quarter of the Northwest Quarter of Section 26, T.14N., R.66W., 6th P.M., Cheyenne, Wyoming (located south of and adjacent to Dell Range Blvd., east of and adjacent to Van Buren Ave.) (Postponed from 6/23/14). Sharon Carlberg spoke in opposition to the proposed zone change, referencing her comments on the previous item. Casey Palma, Steil Surveying Services, agent for the applicant, confirmed the developers have no interest in developing the property for anything other than for storage units and indicated if any of the required approvals through the City (i.e. annexation, re-zoning and final plat) were not received, the developers would not file applicable documents (annexation ordinance and/or final plat) for effectiveness and the project would not move forward. Mr. Shanor moved to approve on second reading, seconded by Mr. Allen. Upon inquiry, Jerry Ciz, managing developer partner, advised a study on storage unit needs in the community and particularly within the project area was done to ascertain the public demand level. Upon query, Mr. Ciz and Mr. Palma provided information on the proposed storage unit "high tech" facility; unit sizes, and reasons for requesting the MUE zone classification, which include better aesthetics and streetscape amenities. Discussion included elements required and uses allowed under a MUE zone and differences between other zone types; current mixed use zone for the property; buffering; traffic; drainage; conditional use approval for the storage unit project that will be required through the Board of Adjustment; concerns involving potential future uses of the property under a MUE zone if the storage unit project does not proceed, and property owner and developer contractual arrangements. During discussion and upon inquiry, Brandon Cammarata, Planning and Development Director, provided information on development of infill sites and advised review and consideration of other zoning classifications was conducted with the MUE zone being supported by staff. Mr. Cammarata also provided general information on design standards and buffering requirements for other zone types pursuant to the Unified Development Code (UDC). Motion carried. Voting "yes" -- Mr. Allen, Mr. Brown, Mr. Cook, Dr. Rinne, Mr. Shanor and Mayor Kaysen. Voting "no" -- Ms. Broyles, Mr. Luna, Mr. Valdez and Ms. Williams. Discussion included the following: Comments in support as well as non-support of the proposed change; option availability to new LI and HI zone developments or redevelopments if the ordinance is approved; aesthetics; water conservation; concern that requests for other zones types to have the same option may be received; weeds and natural grasses, and gateways into the community. Upon inquiry, Brandon Cammarata, Planning and Development Director, advised the option would be applied to any development; provided information on when existing developments may be allowed the option; indicated that weeds and run-off issues will still be the responsibility of the landowner, and reviewed differences between the zones involving landscaping requirements for undeveloped lands. He stated the amendment proposed was a topic raised during the annual review process of the Unified Development Code (UDC). A list of LI and HI zoned areas within the City was requested to be provided to governing body members prior to third reading of the ordinance. Motion carried. Voting “yes” -- all members of the governing body with the exception of Ms. Broyles and Ms. Williams voting “no”.
