[CA] Minutes from Regular Meeting of the Governing Body on November 10, 2014. Motion (per Consent Agenda) carried.

Mr. Brown declared a conflict of interest (business interest in voucher payable to Ameri-Tech HVAC Services) and vacated Council Chambers. Mr. Shanor moved to approve payment of vouchers as presented, seconded by Ms. Williams. Upon inquiry, Rick Parish, Parks and Recreation Director, provided information on a purchase order payable to Brody Chemical for AquaBlue lake dye (used to reduce algae growth in lakes), advising the dye is applied at a minimum of once a year. Motion carried. Voting "yes" -- all members of the governing body present in Council Chambers. Following announcement of the vote, Mr. Brown returned to Council Chambers.

Mayor Kaysen opened a public hearing to receive public comments regarding the sale of a tract of land owned by the City of Cheyenne, located at 206 West Lincolnway, Cheyenne, Wyoming, legally described as the East 22 feet of Lot 7, Block 390, Original City, to the Children's Museum of Cheyenne, a Wyoming corporation, for economic development purposes pursuant to W.S. § 15-1-112(b)(i)(D), and in exchange for consideration as provided by Section 5 of the Project Development and Administration Agreement entered into between the City and the Children's Museum of Cheyenne, dated October 6, 2014 (City Contract # 6242) (Rescheduled from 11/10/14). Aimee Dendrinis, Children's Museum of Cheyenne, provided information on the Children's Museum's proposed utilization of the land, and commented on the Museum's educational aspects, employment opportunities and economic development benefits resulting from the Museum's new building project. Jim Weaver, agent with #1 Properties, spoke on behalf of Outback Investments, owner of the Hynds Building (adjacent property), expressing support for the Children's Museum's building project but noting the Hynds owner's concern that discussions on a corridor between the two buildings for potential joint access and benefit may not be held once the sales transaction for the property is complete and the City is no longer involved. He discussed provisions contained in the previously approved contract (Contract #6242) relative to construction of the Children's Museum and potential effect on the Hynds Building, current status of seeking an attorney general's opinion on transaction legalities as stated in the contract, and the corridor's importance relative to sales

marketability of the Hynds Building. Upon inquiry, Dan White, City Attorney, advised, pursuant to wording contained in the contract, a letter was submitted to the Wyoming Attorney General's Office and a response letter was received indicating the Attorney General would not be rendering an opinion at this time on the legality of the transaction. Mr. Weaver questioned whether the entire agreement was still viable, or if it would be amended, with regard to the Attorney General's response. Mr. White declined to respond to the question, expressing his belief that it would be inappropriate for him to do so at this time as his response would be more a matter of confidential legal advice to City Council. Discussion topics included: General belief that the Museum's representative(s) intent is to communicate with the owner of the Hynds Building; time in which the owner of the Hynds Building has had to present a viable offer to purchase the City's property, and sale of the property to an interested party (i.e. Children's Museum) for less than the appraised value. Upon inquiry, Mr. Weaver provided information on past presentations that have been made to the City regarding proposed use of a corridor relative to development of "the hole", noting the concept was never to buy and use the property but how to best utilize use of a corridor. Mayor Kaysen noted the City has received conceptual proposals in the past but nothing had been requested to bring a formal proposal forward. There being no further comments or discussion and purpose of the hearing having been met, Mayor Kaysen closed the public hearing. He advised Agenda Item #23, a resolution affiliated with the proposed sale, was on the current agenda and had been referred (as a Consent Agenda item) to Finance Committee, which will discuss the resolution at its 11 a.m. meeting on December 1, 2014.

Mayor Kaysen opened a public hearing to receive public comments to determine whether compliance of annexation conditions required by Wyo. Stat. §15-1-402 exist for a parcel of land situated in a portion of the NW 1/4 of Section 21, T.14N., R.66W., 6th P.M., Laramie County, Wyoming, to be known as The Bluffs, 10th Filing, Annexation (located between Converse Avenue and Crestridge Drive, north of Foothills Road). Logan Graves, Planning and Development office, stated the proposed annexation is pursuant to a petition requesting annexation submitted by the property owner and that requirements and compliance of annexation conditions contained in state statutes had been met. Ms. Graves noted zoning and final plat actions are also involved for consideration and that the preliminary plat is in process. There being no further comments or input and purpose of the hearing having been met, Mayor Kaysen closed the public hearing.

ORDINANCE - Annexing to the City of Cheyenne, Wyoming, a parcel of land situated in a portion of the Northeast Quarter of the Southeast Quarter of Section 20, T.14N., R.66W., 6th P.M., Cheyenne, Wyoming, to be known as Scenic Development (located west of and adjacent to Converse Avenue, north of Dell Range Boulevard). ORDINANCE - Amending the Central Business District (CBD) zoning to include the design standards currently existing as the Small Scale Commercial and Mixed Use Design Standards described in Cheyenne Unified Development Code Section 6.7. [City Clerk note: Mr. Allen joined the meeting in progress.] Boyd Wiggam, Wyoming Liberty Group, expressed his belief that the ordinance would not forward downtown economic development efforts and may result in unintended consequences, and commented on elements involved in the standards and how they would be applied to certain downtown properties relative to existing vs. new buildings. Speaking in favor of the design standards were: David Ohde, DDA/Mainstreet Design Committee, commenting in support of the standards applying to new construction and additions which will benefit the downtown area; Dick O’Gara, Vice-President, DDA Board, expressing support for the standards and mandatory guidelines and noting the DDA Board has not yet had an opportunity to officially vote on the standards, and Glen Garrett, downtown property owner, citing the standard’s positive impact on property values, quality building, and downtown and community benefits. Mr. Shanor moved to approve on second reading, seconded by Ms. Williams. Mr. Shanor moved to amend to include Staff Recommendation #2 (to exclude Section 6.7.3.c, Enclosure Ratio, from applicability to the Central Business District zone), seconded by Dr. Rinne. Comments followed on the reason for the proposed amendment. Motion to amend carried. Voting “yes” -- all members of the governing body present. Upon inquiry regarding the standards’ applicability to additions and whether it would also apply to existing buildings affiliated with an addition, Brandon Cammarata, Planning and Development Director, advised the requirements would apply to new additions to an existing building. Discussion followed on setbacks, lot lines and what constitutes an addition. Mr. Cammarata provided information pertaining to the topics raised, and clarified interpretation of an addition would be based upon applicant information submitted through the building permit process. Further comments followed on the need for guidelines for new construction downtown; past efforts to implement standards specifically patterned for downtown; waiting to approve any standards following review of regulatory processes to be more business friendly, including additional public input, and after determining the effects of implementation of the downtown facade program and the DDA/Main Street loan program, and Planning Commission recommendations related to the topic. Main motion as amended failed. Voting “yes” -- Mr. Brown, Ms. Broyles, Dr. Rinne, and Mayor Kaysen. Voting “no” -- Mr. Allen, Mr. Luna, Mr. Shanor, Mr. Valdez and Ms. Williams.

Pursuant to recognition by the chair (i.e. Mayor Kaysen), Ms. Broyles requested the opportunity to make a statement in conjunction with a request she would be making to withdraw the item from the agenda. Mr. Shanor raised a point of order questioning whether comments could be made prior to having a motion on the floor. Mayor Kaysen responded that he would offer Ms. Broyles, as sponsor of the ordinance, the opportunity to comment relative to her intention to request the item be withdrawn from the agenda. Ms. Broyles commented on the initial purpose of the ordinance and, noting there had been numerous discussions on the topic and that members of the governing body have not reached a consensus of agreement on what should be done to address obstructions on streets, requested the item be withdrawn from the agenda. Following query to members of the governing body present and with no objection being raised, Mayor Kaysen announced the item was being withdrawn from the agenda.
