ITEM 1: TEXT AMENDMENT: Lot Coverage, a proposal to amend Section 5.1.5 of the Cheyenne UDC, Lot Coverage Maximums, for Lot Types DD5 and DD6.
PLN-15-00011 / Lot Coverage Amendment

Office Representative – Brandon Cammarata

Mike Tylka, Planner, read the item into record and stated this is an item that came up through the annual review in February of 2015. This relates to increasing the maximum lot coverage allowed in some of the larger urban lot types. Due to staffing constraints we will be pushing this back to October 19th. At the October 19th meeting we will have a preliminary meeting and then November mid month have an advertised public hearing and ask planning commission for a recommendation to take to Council.

Mark Woods, Chair, joined the meeting at 6:07 p.m.

ITEM 2: OFFICIAL MAP AMENDMENT: Amendment to the official map as presented by the MPO.

Office Representative – Tom Mason

Tom Mason, Director for MPO, provided a staff report, including a brief history.

Mr. Mason stated that the PC is considering the revised city major street plan official map. This is allowed by state statute 15-1-508. A major street plan had been adopted which is, PlanCheyenne approved in April 2014. Now after that plan is adopted, the Governing body may adopt an Official Map.

Topics discussed were as follows:

- Maps were presented in quadrants
- Change in classification for roads
- Christensen Road right-of-way survey alignment
- Protecting rights-of-way for the City residents
- Design 80% complete
- Right-of-way purchases with property owners
- Amend map to true design
- Reduce right-of-way width and intersection adjustment

Mr. Griggs asked why the decision was made to reduce the width of the roadway.

Mr. Mason stated the design team and City Engineers decided a reduction was prudent due to the number of planned lanes.

Mr. Woods opened the floor for Public Comment on the item.

John LaFond, adjacent property owner, stated more property is required in the future and he is opposed to providing more property.

Mr. Woods closed the public comment time period.

Mr. Mason stated he is not aware that there would be more property required for the roadway in the future.

Mr. MacDonald made a motion to recommend approval of the Official Map Amendment for Christensen Road as presented. Kenneth Uhrich (I thought it was Phil Griggs that did the 2nd) seconded the motion.

Roll Call: Motion approved unanimously with a vote of 6-0.

OTHER BUSINESS: MPO provided a written summary of the Division Avenue and Wallick Road Corridor Plan. The project was completely outside of City limits, but the MPO wanted to share the plan with the City Planning Commission because it is adjacent to the city and within the one mile boundary. The County has approved the Final Division Avenue & Wallick Road Corridor Plan on September 15, 2015.

Dear Property Owner:

The purpose of this letter is to notify you of proposed amendments to the “Major Street Plan Official Map” for the City of Cheyenne. You are being notified because you are an owner of property adjacent to the planned Christensen Road extension between Commerce Circle and U.S. Highway 30. A map is enclosed to show you the proposed Official Map Amendment.

A public hearing will be held at the City Planning Commission on Monday, September 21, 2015 at 6:00 p.m. in Council Chambers, 2101 O’Neil Avenue. The purpose of the public hearing is to describe the mapping changes and give all interested persons an opportunity to make comment on the proposed amendments to the official map for Christensen Road and to the entire official map for the City.

The creation of an official map is allowed by State Statutes §15-1-501 et seq. The purpose of an official map is to show the locations of collector and arterial streets which have already been approved or proposed new streets or street extensions that have been surveyed based on a major street plan, also known as PlanCheyenne. The placing of any street or street lines upon the official map does not in itself constitute the opening or establishment of any street or the taking or acceptance of any land for street purposes.

Please call, email, or write if you have any questions or comments. I can be reached at 307-638-4385, or tmason@cheyennempo.org.

Tom Mason, Director

Comments:

There is a slight concern for access to the properties located to the east of Christensen Rd directly east on Tate Rd. Will that area be accessible from the Christensen overpass or under the overpass.

Mayor City Clerk

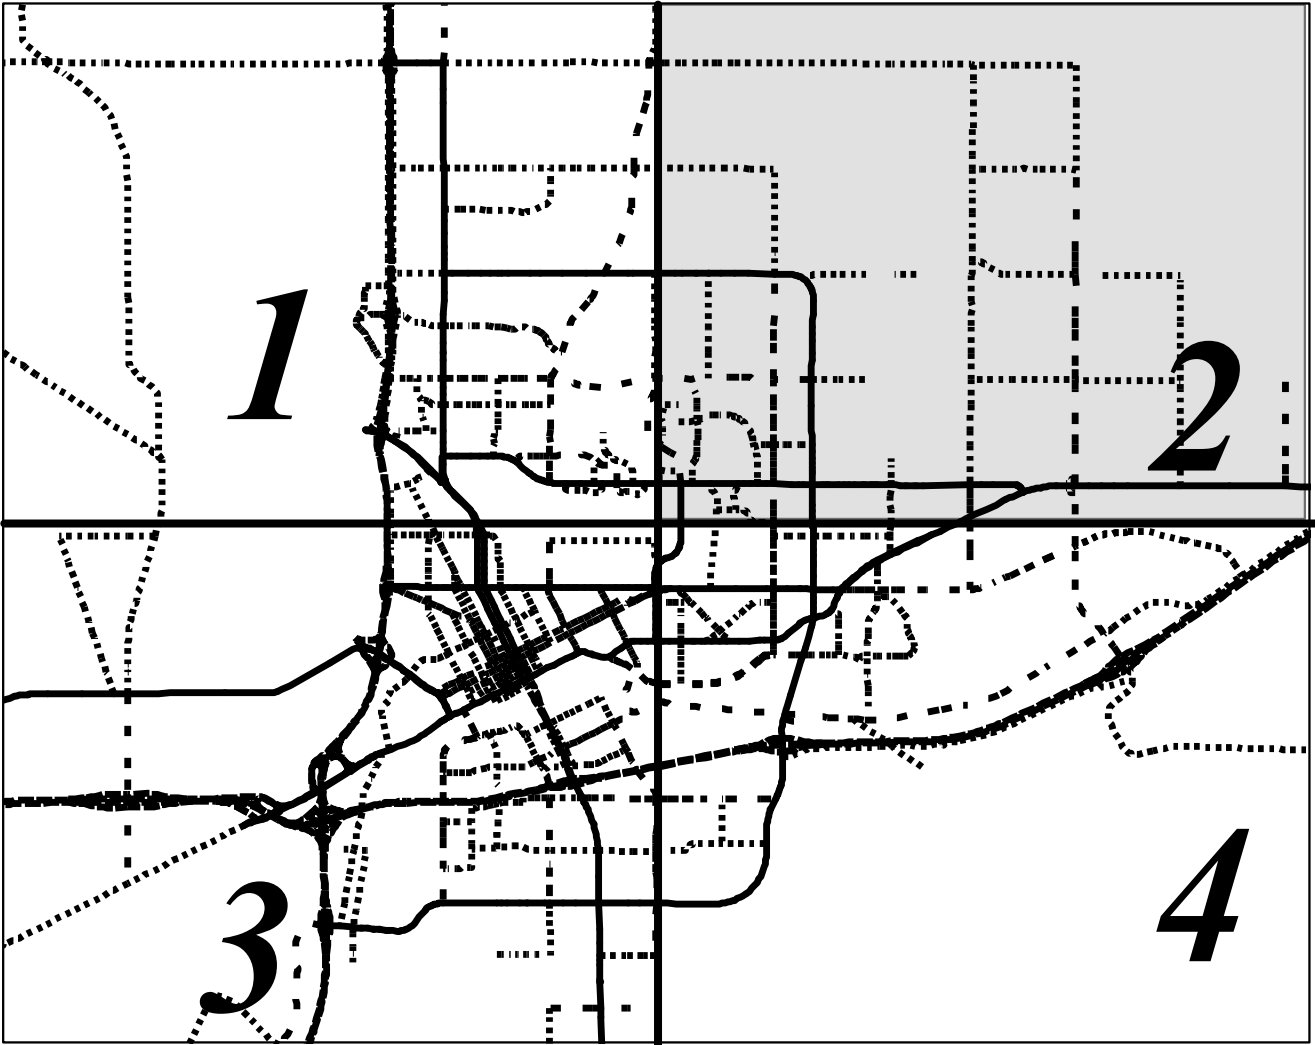

The creation of an official map is allowed by Wyoming State Statute §15-1-508 et seq. The purpose of an official map is to show locations of collector and arterial streets which have already been approved or proposed new streets or street extensions made by the governing body based on a major street plan. The placing of any street or street lines upon the official map does not in itself constitute the opening or establishment of any street or the taking or acceptance of any land for street purposes.
