

**Summary of changes made to the January, 2015  
Neighborhood Traffic Management Program  
Substitute Resolution – January 25, 2016 Amendment**

1. Within the text there were references made to both “affected area” and “area of concern”; we removed “area of concern”.
2. General formatting corrections.
3. Removed all reference to a Neighborhood Traffic Committee throughout.
4. Change City Traffic Engineer to City Engineer throughout.
5. Page 3, Collectors: Adding to end of paragraph – **Collector roadways are further subdivided into Major Collectors and Minor Collectors.**
6. Page 4, Change “primary point/s” to “primary point(s) of concern”. (four places in bullets).
7. Page 4, last paragraph - The City will create and provide a map of the “affected area”. The City will also create a list of all property owners addresses within ~~these areas~~ **this areas**. This list will be used for notification of any implementation measures, of any public meetings and other necessary communication. **The map of the affected area will** ~~This information may~~ be sent to the Cheyenne Police Department traffic unit and the Cheyenne Fire Department assistant fire chief for their information and review.
8. Page 6 “Active Projects” added this text - **Active Projects** - NTMP staff will work with the neighborhood to create a Traffic Management Plan (Plan) for top priority applications. The Plan may include traffic management measures to address the neighborhood's traffic problems. **If more than one eligible NTMP project has been received by the city, the priority will be determined by the City Engineer who will utilize the criteria ranking and by the timing of the receipt of the project.** NTMP staff will work with as many of the highest-priority eligible projects as resources allow **including availability of staff time**. As work on one project is completed, work will begin on the next highest priority Eligible Project.
9. Page 6, 3. Traffic Management Plan (Plan) Development – **An initial meeting** will be held with residents, business and property owners and other neighborhood representatives. NTMP staff will also invite the City Council members for the ward. The purpose of the meeting is to seek input on the neighborhood’s specific traffic issue(s) to be addressed. ~~and to create a Neighborhood Traffic Committee (NTC). The NTC will likely be composed of the applicant, other interested residents, business and property owners and, if possible, a member of the City Council from that ward. The NTC should function as a link between NTMP staff and the neighborhood during the NTMP process.~~

Using input received from the public meeting, ~~and the NTC~~ NTMP staff will create a draft Plan to address the traffic issue. The Plan may include alternatives for addressing the issue identified. The City Engineer will address and complete projects with a cost of less than \$5,000.00 as funding becomes available.

10. Page 7 Testing – Moved the paragraph beginning with “The Objectives of testing.....” to the front of this section.
11. Page 8, last paragraph of Testing, last sentence - If not, NTMP staff will ~~determine~~ ~~meet with the Council sponsor to decide~~ whether to revise the Plan or discontinue the traffic management request.
12. Page 8, Collector Street Process, 1. Initiation – Changed from two members to one member of City Council sponsoring.
13. Page 8, Staff Review – Changed these sentences as follows: After this, the staff ~~will~~ ~~would~~ create and provide a map of the “affected area”. The City ~~will~~ ~~could~~ also create a list of all property owners addresses within these areas. This list ~~will~~ ~~could~~ be used for notification of any implementation measures, of any public meetings and other necessary communication. This information ~~will~~ ~~could~~ also be sent to the Cheyenne Police Department traffic unit and the Cheyenne Fire Department assistant fire chief for their information and review.

During the initial review, NTMP staff ~~will use methods including, but not limited to~~ ~~could use any of the following methods~~ in determining the potential needs of the “affected area”:

14. Page 9 - Public Meeting #1 (See Appendix C)  
An initial meeting will be held with residents, business and property owners, neighborhood representatives, and any other affected members of the public. NTMP staff ~~could use~~ ~~will~~ ~~use the previously assembled~~ mailing lists, changeable message signs, newspaper ads, or other items deemed necessary to inform the public of this meeting. ~~Staff will also invite the City Council members for the ward and the sponsoring Council members.~~ The primary purpose....
15. Page 9, 4. Development Alternative Plan, changed line - The Plan ~~shall~~ ~~may~~ include ~~prioritized~~ alternatives, ~~if any~~ and a preferred alternative for addressing the issue identified.
16. Page 10, Public Meeting #2 (See Appendix C)  
A second meeting will be held with the public to discuss the Plan and any additional alternatives considered during development of the Plan. NTMP staff ~~could~~ ~~will~~ use mailing lists, changeable message signs, newspaper ads, or other items deemed necessary to inform the public of this meeting. ~~Staff will also invite the City Council members for the ward and the sponsoring Council members.~~ The.....
17. Page 10 - Finalize Plan  
Using input received from the public meeting, NTMP staff will create a final Plan to address the traffic issues. Staff will discuss this final plan with the sponsoring Council members. If there is majority support from the public ~~based on input from public meetings~~ and concurrence.....

18. Page 11 Neighborhood Matching Grant Funds, nine lines down – Cheyenne’s Traffic ~~Management~~ **Maintenance** Program.....
19. Page 11, 100% Neighborhood Funding – Removed paragraph
20. Page 12, Traffic Management Tool, 1st paragraph, last sentence – These tools will ~~only~~ be considered and utilized in projects that have met the minimum criteria as outlined in this NTMP.
21. Page 12, Local Streets paragraph – Removed this sentence: All costs incurred for removal or modification will be borne by the neighborhood. Changed last sentence to: However, the City **reserves the right to** determine **that** a traffic management measure must be removed or modified due to technical, safety, or other reasons. **Any removal or modification request is subject to the availability of project funding.**
22. Page 12, Traffic Management Tools – first paragraph last sentence - These tools will ~~only~~ be considered and utilized in projects that have met the minimum criteria as outlined in this NTMP.
23. On Page 13 under Resident Participation/Education – Changed from 2 programs “Neighborhood Speed Watch” and “Neighborhood Speed Patrol” into one new program called “Neighborhood Speed Watch Program” with the following text:

This Program is sponsored and prepared by the Cheyenne Police Department and City Engineer’s Office. City residents record all observed speeds and report the speeds back to the City. No formal citations or fines are issued. However, the data collected by citizens may be used by the Police Department to assign officers for selective enforcement and by the City Engineer’s Office to evaluate posted speed limits and/or evaluate the need for other traffic management tools.

24. Table 2 of 4 on page 16 – Neighborhood Speed Watch Program allowed on Residential Local or Collectors only. Cells merged and text changed to **“Only Residential Streets”**.
25. Page 23 Neighborhood Speed Watch Program rewritten to new language.

Residents concerned with speeding traffic in their neighborhood use this data collection program to help determine if there is a speeding problem on a residential local or collector street. Citizens agreeing to participate in the program are briefed on the requirements and expectations of them. They are instructed in the use of radar equipment, proper data collection and appropriate behavior while conducting the data collection. A radar unit is loaned out to the citizens. This is typically a team effort; one person in the group is responsible for operating the radar unit; another person records the required information on a City of Cheyenne Neighborhood Speed Watch Form. Once all data collection is completed, the neighborhood residents return the radar unit and all report forms to the Cheyenne Police Department Traffic Sergeant.
