MISSION

The mission of Cheyenne City Government is to provide our community with the services necessary to promote a desired and sustainable quality of life.

We are stewards of all that is entrusted to us.

CHEYENNE AT A GLANCE

FORM OF GOVERNMENT

The City operates under the Mayor-Council form of government. The Mayor is elected at large and on a non-partisan basis for a four-year term. The City is divided into three wards and three councilpersons are elected from each ward also on a non-partisan basis for a four-year term.

LOCATION & SIZE

Cheyenne is located at the intersection of Interstates 25 and 80 in southeast Wyoming. It has an area of 24.52 square miles with an elevation of 6,067 feet.

HISTORY

The City of Cheyenne had its beginning in 1867 when the Union Pacific Railroad came through on its way to the west coast. Settlement came so fast that the nickname "Magic City of the Plains" was adopted.

SERVICES

The City of Cheyenne provides a full range of services including police and fire protection, construction and maintenance of streets and other infrastructure, recreational activities and cultural events, sanitation services, and health and welfare programs.

Water and sewer services are provided through a separate Board of Public Utilities which functions, in essence, as an enterprise fund of the City of Cheyenne. The Board prepares its own budget with a resolution approved by their Board of Directors. The Board's detailed budget information is not included in this document, but will be included in the appropriation of the budget for the City of Cheyenne when approved by the Governing Body of the City.

MAYOR'S BUDGET MESSAGE

To the Members of the Cheyenne City Council,

The budget presented to you is a reflection of external influences, and how we look to respond them. The proposed FY18 budget is balanced with \$754K above the adopted FY17 budget. This increase is the result of the sale of the former police department building. Without the sale, we would have had to further reduce spending, or spend from reserves. I have included \$74K from that sale to be used for professional development of staff. I believe this is an important investment in our employees, and a responsible use of one-time funds. Addressing the shortfall of revenues specifically:

1. Decline in State sales and use tax revenues. We are anticipating a \$1M shortfall in FY17 in sales and use tax revenue than what was projected. Therefore, we budgeted \$1M less in this revenue fund for the next year. This figure anticipates a stabilization of our current economy. Indicators project stability, as well as growth beginning in the 3rd quarter for FY18. However, we remain conservative in our projections.

2. Increase cost of healthcare insurance premiums. Shortly after taking office, I recognized the City offered above and beyond a "Cadillac Plan". Even our provider, Cigna, told us this plan was unsustainable without increasing premiums well above 60%. I was clear with my administration that any increase in premiums would not be born by employees by cutting into their take-home pay. Instead, I urged taking a more reasonable and responsible approach to addressing premiums and benefits. We will still have a strong plan, offering great coverage, while encouraging employees to manage their health and wellness. We will be much more aligned with the State and the County with our plan offering.

Solving the \$1M decrease in revenues and estimated \$1.2M increase in insurance premiums must be realized through:

3. Reduction in spending. The City remains under a hiring freeze until further notice with the exception of essential employees including part-time, as determined by committee. Through this process, the City has reduced the number of employees by 11. Department Directors have worked closely with staff in realizing when, through attrition, the ability to address pay equity issues. We have, and will continue to provide market/merit based pay increases for employees while still realizing an overall savings to the City.

The FAST committee continues its diligent work in identifying cost-saving measures, and areas of duplication of services. This is good government, and I commend the team. One of their recommendations, in order to implement the cost-saving measures and address redundancies, was to transform our organizational structure.

This was not change for the sake of change, but rather the need to ask the hard questions of what is the proper role of government, and can we do it better? I believe there are great opportunities ahead. We are committed to managing for success, and that means both our employees and the citizens we serve. We are stewards of all that is entrusted to us.

Sincerely,

Marian J. Orr, Mayor

BUDGET PROCESS

The City of Cheyenne's Annual Budget is adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year end.

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City of Cheyenne are required to submit requests for appropriation to the City Treasurer on or before May 1 of each year.

In accordance with Wyoming Statute §16-4-104, the Treasurer must prepare a tentative budget for each fund and file it with the Governing Body no later than May 15 of each year. The proposed budget shall be reviewed and considered by the Governing Body in a regular or special meeting called for this purpose. A public hearing shall be held no later than the third Tuesday in June. Within twenty-four (24) hours of the conclusion of the public hearing, the Governing Body shall, by resolution or ordinance, make the necessary appropriations and adopt the budget, which, subject to future amendment, shall be in effect for the next fiscal year.

At the request of the City Treasurer or upon its own motion after publication of notice, the Governing Body may by resolution transfer any unencumbered or unexpended appropriation balance or part thereof from one fund, department or account to another.

No officer or employee of the City shall make any expenditure or encumbrance in excess of the total appropriation for any department. Management may amend the budget within the department level without the approval of the Governing Body.

BUDGET PROCESS

FUND OVERVIEW

The City's governmental functions and accounting system are organized, controlled and operated on a fund basis. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Each fund has its own set of self-balancing accounts which are comprised of its assets, liabilities, fund equity, revenues and expenditures.

The City of Cheyenne Fiscal Year 2018 budget contains 20 separate funds which account for the City's services including public safety, general government administration, public works, community recreation and events and health and welfare.

GENERAL FUND

The General Fund is the City's primary operating fund. It is used to account for all revenue sources and expenditures which are not required to be accounted for in other funds. Revenues accounted for in the General Fund are derived primarily from taxes, federal and state distributions and charges for goods and services. Expenditures include all major functions of the City in addition to allocations to support agencies.

SPECIAL REVENUE FUNDS

These funds are used to account for the proceeds of specific revenue sources such as taxes, governmental grants or other revenue sources that are legally restricted and designed to finance particular functions or activities of the City. The City has the following Special Revenue Funds:

- **Weed and Pest Control** – monies received from a general county tax levy to administer a program of weed and pest control.
- **Youth Alternatives Grants** – monies received from various agencies to administer a program for youth.
- **Development Impact** – community facility fees received to be used for park development and infrastructure costs.
- **Recreation Programs** – monies received from special recreational programs to administer those activities.
- **Community Development Block Grant (CDBG)** – funds received from the U.S. Department of Housing and Urban Development to assist low income individuals.
- **Law Enforcement Grants** – federal, state and local grants received by the police department to administer various programs.
- **Transportation Planning**—funds received from federal and local sources to provide metropolitan street planning for the City and County.
- **Federal Transit Authority (FTA) Grant**—funds received from federal, state and local sources to provide public transportation.
- **Juvenile Justice**—monies received from various grants to be used for programs which assist youth in trouble.
- **Special Friends** – accounts for a program which brings adults together with young people, funded by grants and donations.

FUND OVERVIEW

CAPITAL PROJECT FUNDS

The Capital Project Funds account for financial resources to be used for the acquisition, construction or renovation of capital facilities or other equipment that ultimately become City fixed assets. The City has the following four Capital Project Funds:

- **1% Sales Tax** – revenue received from an optional sales tax approved by voters every four years to be used primarily for street and road projects, commonly referred to as the 5th penny.
- **Special Purpose Option Tax** – accounts for major projects financed through a special voter approved capital facilities sales tax, referred to as the 6th penny.
- **Youth Activities** – accounts for construction of Youth Alternatives projects with funds received from the Ropes Course.
- **Golf Facilities** – accounts for improvements to City golf facilities funded with a portion of revenues received from golf annual memberships.

PROPRIETARY FUNDS

Proprietary funds are used to account for the City's business type activities. There are two types of proprietary funds: Enterprise Funds and Internal Service Funds. Each type of fund imposes fees or charges for services. Enterprise Funds provide services to customers outside the entity. Internal Service Funds are used when a fund primarily provides benefits to other funds, departments, or agencies of the primary government and its component units, or to other governments. The City's four Proprietary Funds are:

- **Fleet Maintenance** – accounts for the costs of fueling and maintaining all fleet vehicles and equipment used in City operations. This is an Internal Service Fund.
- **Solid Waste Management** – monies received from Solid Waste charges and allocated to the operation and maintenance of the City's solid waste activities as mandated by federal and state regulations and to accumulate funds for the closure and post-closure costs of the landfill. This is a Enterprise Fund.
- **Civic Center** - provides a location for concerts, stage performances and other shows. This is an Enterprise Fund.
- **Ice and Events Center** - provides activities at the Center including ice hockey, concerts, roller skating, miniature golf and other public and private events. This is an Enterprise Fund.

PERMANENT FUND

Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

- **Cemetery Perpetual Care** – this fund was set up for the perpetual care of Cheyenne cemeteries. Four hundred dollars is put into the fund each time a cemetery space is purchased.

The City currently has two forms of debt issues with outstanding balances. The Refunding Revenue Bonds were issued in 2012 and are secured by a pledge of federal mineral royalties and gross parking fee revenues received. The bonds were originally issued in 1994 for the George Cox Parking Garage. The bonds were refunded and refinanced in 2003 to include the Parking Structure construction costs.

The 2003 bonds were refunded and reissued in 2012 at a lower interest rate. The payments on the bonds are budgeted and paid out of the General Fund on an annual basis.

The City also incurs debt in the form of capital leases on equipment used in the solid waste activity. The payments on the capital lease obligation are budgeted and paid for in the Solid Waste Enterprise Fund.

GENERAL FUND REVENUES

WHERE DOES THE MONEY COME FROM?

The City of Cheyenne receives revenues from various sources which must be used prudently to provide services to residents and businesses. Below is a breakdown of the sources of revenue included in the Fiscal Year 2018 budget.

- **Taxes and Special Assessments** - franchise fees, property and vehicle taxes
- **Licenses and Permits** - building permits and various business licenses
- **Intergovernmental** - sales taxes, mineral royalties, severance taxes and other revenue from governmental entities
- **Special Distribution from State** - direct appropriation from the State of Wyoming
- **Charges for Services** - recreation, parking and other miscellaneous charges for services
- **Fines and Forfeitures** - fines from parking and other municipal code violations
- **Miscellaneous, Grants, Transfers and Interest** - miscellaneous charges, police grant for school district services and other miscellaneous revenues

TAXES AND ASSESSMENTS

Vehicle Taxes	1,347,591	1,396,685	1,394,799	1,442,000
TOTAL	\$ 11,703,156	\$ 11,448,675	\$ 11,612,799	\$ 11,954,900

Franchise Fees

Franchise fees are set by contracts with various utility, cable TV and telecommunication companies and are based on a percentage (from 1% to 5%) of sales. In previous years, this account also included various contracts with telecommunication companies for the use of right-of-way properties of the City. These contracts are now accounted for in the Miscellaneous Rentals and Leases revenue accounts as they are not considered "franchise" fees. Franchise fees account for approximately 11% of total general fund revenues.

Electric and natural gas franchise fees are currently expected to be above projections for Fiscal Year 2017 by approximately \$75,000. A one time payment was received in Fiscal Year 2015 for franchise fees that had previously been uncollected which accounted for the increase in that Fiscal Year. The City is anticipating additional revenue for Fiscal Year 2018 based on projected increased sales from additional development in local data centers and other community growth. We have projected a total increase of 3.5% in electric and natural gas franchise fees for Fiscal Year 2018. We do not anticipate increases to telephone and cable TV franchise revenue.

Property and Vehicle Taxes

Property and vehicle taxes combine to represent approximately 13% of the general fund revenues. Property taxes are based on property value assessments set by the Laramie County Assessor. The assessed value for 2017 (which will be collected from taxpayers during the Fiscal Year ended June 30, 2018) has not been set as of the preparation of this budget. Based on projections year to date, it appears that the Fiscal Year 2017 property tax collections will be approximately 5% over the Fiscal Year 2016 actual collections. We also anticipate a slight increase in property tax valuations for the 2017 year. The estimate of revenue has been increased accordingly.

Vehicle taxes are collected by the Laramie County Treasurer, and are remitted to the City. Revenues for Fiscal Year 2017 are estimated to be above budget. We have projected the Fiscal Year 2018 budget to be close to expected Fiscal Year 2017 final revenues.

LICENSES AND PERMITS

License and permit revenue accounts for approximately 5% of general fund revenues.

Licenses

Each license type has stable pricing or fees, with revenue only generally increasing with volume. With volume being limited either by market demand or by State Statute (liquor licenses) the room for growth in license revenue is generally constrained. Most license fees that can be changed by local ordinance or resolution have not been increased in some time. The City is proposing increases to these fees which will be approved in a separate ordinance introduced in the summer of 2017. The approximate increase to various licenses not set by statute is 5%.

Permits

Building permit revenue collected through March 31, 2017 is \$1,370,982 which is expected to result in a final Fiscal Year Y2017 at approximately 7% above budget. The projection for Fiscal Year 2018 is to continue the increase in building permit revenue with increased construction projects and increased valuations.

INTERGOVERNMENTAL

State Sales and Use Tax

The single major source of intergovernmental revenue is the City's share of the state sales and use tax collected by the State of Wyoming. This revenue accounts for approximately 31% of the General Fund revenue. Wyoming Statute §39-15-111 governs the distribution process for state sales tax (rate of 4%). Of the amount collected, 69% of the tax is credited to the State's General Fund. Of the remaining 31%, the State is allowed to deduct 1% as an administrative fee. From the remaining balance, the City receives a portion of sales tax collected in the County based on population. For sales tax calculations, the City's population from the 2010 Census is 59,466 compared to the total County population of 91,738 so the City receives 64.8% of the sales tax distributed to Laramie County.

Sales and use tax was on a slight upward trend since Fiscal Year 2011, other than a flat year in Fiscal Year 2013. In Fiscal Year 2016, the trend began a downturn resulting in a 12% reduction from Fiscal Year 2015. The downward trend has continued into Fiscal Year 2017 with a 10% decrease to date from Fiscal Year 2016 actual collections. This will result in a project \$1 million sales tax revenue deficit from budget for Fiscal Year 2017. The projection for Fiscal Year 2018 has been based on expected ending Fiscal Year 2017 revenues, therefore, estimating the same sales tax collections for Fiscal Year 2018 as in Fiscal Year 2017.

Fuel Tax

Fuel tax consists of the City's share of the state tax on gas and diesel (special fuels) sales as described in Wyoming Statute §39-17-111 and §39-17-211. The State of Wyoming increased the tax of \$0.13 per gallon on gas and diesel (subject to certain exemptions and exclusions) to

(Continued on page 39)

INTERGOVERNMENTAL

(Continued from page 38)

\$0.23 per gallon effective July 1, 2013. Of the total tax collected on gas, 15% of the tax (after deduction for a contribution to the University Technology Transfer Program) is distributed to cities and towns in Wyoming based on a combination of location of the dealers and a ratio of the population of the cities and towns. Of the total tax collected on diesel fuel, 5% is distributed to cities and towns based on a ratio of total population of the municipality to the total population of all municipalities within the state. This tax is shown on the budget as Special Fuel Tax. The fuel tax projections are provided to the City by the Wyoming Association of Municipalities based on information obtained from the Wyoming Department of Transportation, and are compared to historical averages to determine the projection for Fiscal Year 2018.

Cigarette Tax

Cigarette tax is governed by Wyoming Statute §39-18-111. Of the taxes collected (\$.006 per cigarette), and after deductions for fees, approximately 75% is distributed to local governments (including counties) in the proportion the taxes derived from sales within each entity bears to total cigarette taxes collected. The projection of cigarette taxes to be collected by the City for Fiscal Year 2018 is provided by the Wyoming Association of Municipalities based on information provided by the Wyoming Department of Revenue in addition to comparisons with prior years.

Mineral Royalties

Mineral royalties are set by Wyoming Statute §9-4-601 which states that 9.375% of up to \$198 million of Federal Mineral Royalties, not including coal bonus funds received by the State of Wyoming, will be distributed to cities and towns. After a base amount, the total is distributed to municipalities based on the Average Daily Membership of students in each municipality. The City of Cheyenne's share of royalties is projected to be \$2,654,000 in Fiscal Year 2018.

Mineral Severance Tax

Mineral severance taxes are set by Wyoming Statute §39-14-801. The total amount "under the cap" that is distributed to cities and towns is 9.25% of a maximum cap of \$155,000,000 for the State. This amount (\$14,337,500) is distributed to cities and towns based on pro rata population. The total municipal population of the State in the 2010 census is 384,960 of which 59,466 live in the City of Cheyenne. This represents approximately 15.4% of the total or \$2,209,100 of severance taxes for Fiscal Year 2018.

INTERGOVERNMENTAL

Historic Horse Racing Payout

The Historic Horse Racing revenue is off-track horse racing wagering that is played in approved, permitted locations. The activity is regulated by the Wyoming Pari-Mutuel Commission. In accordance with Wyoming Statute §11-25-105, the commission may issue pari-mutuel permits for a specified period not to exceed three (3) years from the date of issuance to any Wyoming county, city, incorporated town, county fair board or any corporation that provides a bond acceptable to the commission. The commission pays an amount equal to one percent (1%) of the total amount wagered attributable to historic pari-mutuel events to the city or town in which the permittee is located. The City began receiving revenue from this source in Fiscal Year 2015. The payout amount is estimated based on the historical amounts that have been received.

Lottery Proceeds

Wyoming Statute §19-17-111(b) authorized the WYO Lotto which features Powerball, Cowboy Draw and Lucky for Life games sold through approved retailers. The statute allows that the "net profits" in each fiscal year shall be paid to counties, cities and towns in a percentage related to sales tax collections. The first payment from the WYO Lotto was received by the City of Cheyenne in April of 2016 in the amount of \$107,000. This payment was based on a total distribution by the WYO Lotto in the amount of \$1.2 million for the first quarter of calendar year 2016. For projection purposes, we are making the assumption that the WYO Lotto will distribute approximately \$1 million per quarter and the City of Cheyenne will receive the same percentage during the next fiscal year. This results in a projected revenue of \$332,500.

Special Distribution

The Special Distribution from the State is the City's share of direct appropriations from the State of Wyoming. The State legislature determines the amount of funding and the distribution formula on a biennial basis. For Fiscal Year 2018, the State has continued the appropriation of \$4,674,286 to the City.

CHARGES FOR SERVICES

Charges for services include revenue that the City collects for providing parking and recreational services to the public. The rates for most charges are determined by ordinance of the governing body.

Parking Revenues

Parking revenues are charged to governmental agencies, private businesses and individuals for the use of the City's three parking facilities. The proposed revenue has been projected based on the spaces available and contracted amounts.

Recreation Charges

Recreation charges are for all activities of the Recreation Division except for miscellaneous activities that are accounted for in the Recreation Programs and the Golf Facilities Funds. Estimates for Fiscal Year 2018 have been based on a history of the revenues.

Intra City Charges

Cost allocation and other intra city charges are the cost of Human Resources, Finance, Attorney, Risk Management, Information Technology and Facilities that are allocated to other funds.

FINES AND FORFEITURES

TOTAL	\$ 1,470,479	\$ 1,291,142	\$ 1,432,000	\$ 1,373,000

Fines and forfeitures are amounts charged by the Municipal Court for violations of parking and other City ordinances. If amounts are paid prior to disposition of the court case, the revenue is considered court bonds revenue. If the amounts are paid after the disposition of the court case, they are considered court fines. The amount estimated for Fiscal Year 2018 has been determined by a review of the previous four years of activity and current year collections.

Miscellaneous revenue consists of amounts collected by the City for various rentals and other fees that are not accounted for elsewhere. The estimates of revenue for Fiscal Year 2018 have been determined through averages with prior years including history from 2009-2016, estimated Fiscal Year 2017 revenue, and through discussion with department personnel. The sale of the former Police Building is currently underway and will be finalized in Fiscal Year 2018; thus revenues for property sales have been projected at the offer price of \$1.27 million.

Due to the change in fund accounting as of July 1, 2014, a portion of the net revenues for the Solid Waste Fund are now transferred to the General Fund. For Fiscal Year 2015, that amount was based on 9% of total Solid Waste Fund expenditures by resolution. For Fiscal Year 2016 and beyond, that percentage was lowered by resolution to 5%. Transfers from the Cemetery Perpetual Care are amounts received from the Perpetual Care Fund for interest earned in that fund.

Part Time Budget	\$ 108,000	\$ 108,000	\$ 108,000	\$ 108,000	

Key Changes for 2018:

- The Council payroll benefit costs vary due to coverage changes each year by Council Members.
- The contractual services has been increased to provide for additional professional development funds for Council staff.
- The parts and supplies have decreased due to FY2018 being a non-election year; therefore, memorials and trophies will not be required to be purchased.
- The miscellaneous category includes Ward and Contingency funds which are used for specific ward projects and for support of the annual Employee Christmas Deli and the Summer Employee Picnic.

CITY ATTORNEY

Cost Center Overview:

- Provides legal representation to the Governing Body, the Mayor and City Departments.
- In its representation of the City, the City Attorney's Office deals with a wide variety of legal issues, including constitutional, contract, development, real and personal property, tort, finance, tax, water, employment, collective bargaining, and public records.

Key Changes for 2018:

- The Mayor's office is proposing to add one full time position for Fiscal Year 2018. The creation of this position was a part of the transformation of City Government and is cost neutral to the overall General Fund.
- In addition, as staff changes occur, increases are possible in health insurance costs.
- In Contractual Services the training budget has been increased \$74K to reinvest in the professional development of staff.

RISK MANAGEMENT

Cost Center Overview:

- Oversees property, vehicle and liability coverages and claims, recommends and monitors employee safety programs and practices, and provides safety as well as employee new hire training.
- Division staff provides risk management services for liability incidents and claims for the Board of Public Utilities, and also coordinates the Mayor's Employee Safety Committee.

Key Changes for 2018:

- The preliminary estimates for property, vehicle and liability insurance premiums for the City are estimated at a 15% increase. The actual amount of insurance premium cost will not be known until late May or early June.
- The Risk Management division will be managed by the City Attorney's office as of July 1, 2017. This is a result of the transformation organizational change in the City.

AQUATICS

Cost Center Overview:

- Oversees the operation of the Cheyenne Aquatic Center, Johnson Pool, Sloan's Lake and the Spray Park.
- Offers Red Cross certified lifeguard training in addition to lessons, lap swim, open swim sessions and special events in the pool.

	2015 ACTUAL	2016 ACTUAL	2017 ADOPTED	2018 PROPOSED	% Change

Part Time Budget/Actual	\$ 241,683	\$ 378,191	\$ 280,000	\$ 400,000	

Key Changes for 2018:

- The budget for Fiscal Year 2017 for life-guard costs was not fully funded; a budget of \$250,000 was included in the Fiscal Year 2017 budget when a request was made for \$350,000. During Fiscal Year 2017, the costs will approximate \$350,000, therefore we have increased this line item by \$100,000.
- Fiscal Year 2017 was the first year to include projected costs for the new Cheyenne Aquatic Center. As we have now completed over one year of operations, the Fiscal Year 2018 budget is more in line with actual costs of the Center.

BOTANIC GARDENS

Cost Center Overview:

- Exhibits diverse plant collections and landscapes, beautifies the community, manages a robust corps of volunteers, and provides community education for all ages in the subjects of landscaping, gardening, science, history, renewable energy and sustainable solutions.
